JORDAN RIVERA
Toronto, ON | jordan.rivera@example.com | (416) 555-0142 | linkedin.com/in/jordan-rivera-dev | github.com/jrivera-dev

SUMMARY
Computer science student focused on cloud infrastructure and backend development.

EDUCATION
University of Toronto | Sep 2022 – Expected May 2026
Bachelor of Science in Computer Science | GPA: 3.7/4.0
Relevant Coursework: Data Structures, Operating Systems, Computer Networks, Databases

EXPERIENCE
Cloud Engineering Intern | Northwind Logistics | Toronto, ON | May 2025 – Aug 2025
• Automated deployment of three internal services to AWS Lambda using Terraform and GitHub Actions
• Wrote Python scripts to clean up unused Amazon S3 buckets, cutting storage costs
IT Support Assistant | University of Toronto Libraries | Sep 2023 – Apr 2025
• Resolved hardware and software tickets for students and staff on Windows and Linux
• Documented common fixes in the internal knowledge base

PROJECTS
Serverless Job Tracker | TypeScript, React, DynamoDB | github.com/jrivera-dev/job-tracker
• Built a REST API with AWS Lambda and API Gateway to store job applications
• Added unit tests with Vitest and a CI pipeline with GitHub Actions
Home Lab Kubernetes Cluster | Docker, Kubernetes, Linux
• Ran a three-node cluster on Raspberry Pi devices to practise container orchestration

SKILLS
Languages: Python, TypeScript, JavaScript, SQL, Bash
Cloud & DevOps: AWS, Terraform, Docker, Kubernetes, GitHub Actions
Tools: Git, Linux, Jira
Spoken Languages: English, Spanish

CERTIFICATIONS
AWS Certified Cloud Practitioner | Amazon Web Services | Mar 2024
